Responsive to Obviousness – Type Double Patenting Rejection

Enclosed herewith is a Terminal Disclaimer over claims of U.S. Patent Application No. 10/405,388. This submission is believed to overcome the obviousness-type double patenting rejection of the instant claims.

Accordingly, Applicant submits that none of the references, alone or in combination, anticipate or make obvious the invention as presently claimed and that the application is now in condition for allowance. Therefore, Applicant respectfully requests reconsideration and further examination of the application and the Examiner is respectfully requested to take such proper actions so that a patent will issue herefrom as soon as possible.

If the Examiner has any questions or believes that a discussion with Applicant's attorney would expedite prosecution, the Examiner is invited and encouraged to contact the undersigned at the telephone number below.
